BRAND GUIDELINES

EUROPEAN LE MANS SERIES

INTRODUCTION

This document presents the different elements that make up the European Le Mans Serie new graphic identity which supersedes and replaces the previous graphic identity.

The two may not therefore be in use at the same time under any circumstances. We are counting on your diligence to make sure that you do not use any filesor support materials based on the former graphic charter.

For reasons of coherence and efficiency, it is important to comply with the latest guidelines.

The purpose of our new graphic identity is to rejuvenate and modernise **the championship's image, while at the same time introducing coherent, across-the-board solutions.**

The ELMS does not own all the rights to the images used in this graphic charter. All of these images are included in this charter to illustrate the purpose and applications.

Any reproduction, representation, use or distribution of these visuals outside this medium or for other purposes is strictly forbidden and involves your sole responsibility. The visuals are for internal use only.

LOGOTYPE

It is designed for use in all circumstances on all types of support materials, on either a dark or light background. The design of the letters ELMS is exclusive and may not be used for any other purpose.

There are two versions of the logo.

LOGOTYPE

CORPORATE VERSION

The Corporate logo is the most commonly used version for all types of support materials.

PANTONE
ORANGE 021 C
CMYK
0/ 75 / 100 / 0
RGB
255 / 95 / 0

PANTONE
282 C
CMYK
100 / 80 / 0 / 80
RGB
10 / 0 / 50

SIMPLIFIED VERSION

The ELMS symbol on its own.

This version is for use when space is restricted or on small-sized support materials where there is a risk that the Corporate version will not be legible, or where print quality would be poor.

Simplified version for internal use only.

LOGOTYPE

COLOUR USES

The four colour versions are available for all our communication materials.

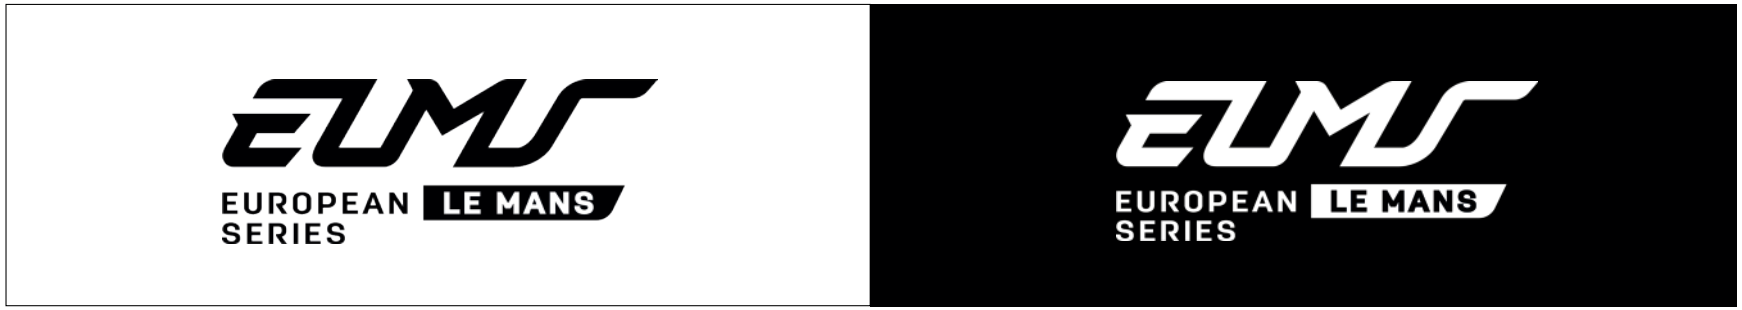

The white version can be used on patterned and dark visual backgrounds for an optimal legibility.

Always ensure there is high contrast between the logo and the background.

POSITIVE AND NEGATIVE VERSIONS

To be used only with specific printing constraints.

LOGOTYPE

CLEAR ZONE

The clear zone is a clear space that protects the logo from the encroachment of other graphic elements that could detract from its clarity.

The term graphic element used here covers all other visual elements (copy, photos, illustrations, graphics, tables, logos, etc.).

These elements must all be positioned outside of the clear zone, irrespective of the type of background (light or dark).

The size of the clear zone is defined in the illustration opposite.

MINIMUM SIZE

To ensure optimal legibility, the minimum width of the logotype is 20mm for print uses and 130px for digital uses.

The use of logotype under this size, the simplified version must be used.

The minimum size of the logotype simplified version is 8mm/23px.

20mm
130px

8mm
23px

PROHIBITED USE

This graphic charter lists different restrictions.

Compliance with these guidelines is essential for credibility, efficiency and authenticity reasons. It is consequently strictly forbidden to distort, modify or embellish the logo in any way.

The illustrations opposite are examples only and are by no means exhaustive.

1. Do not alter the logo's colours.
2. Do not modify the layout of the logo.
3. Do not distort the logo.
4. Do not position any element inside the logo's clear zone.
5. Do not change the typeface used for the logo.
6. Do not apply effects to the logo.
7. Do not apply the gradient on the logo.
8. Do not use orange as the unique color of the logo.
9. Do not attempt to create an alternative version of the logo.
